Enter location code GU001 or scroll down and select GUAM

Your OHA can also be used to pay for your mortgage payment if you decide to purchase a property while on Guam. With attractive interest rates, and the expected growth on Guam, it is a great time to purchase.

The formula for calculating the OHA you will receive when purchasing is to divide the purchase price by 120. You will receive this amount amount, or the housing OHA allowance, whichever is lower. We will be happy to show you how to maximize your buying power while using your OHA to build equity in your home!
